

Amherst Soccer Camps

Amherst Soccer camps are a great way to get your young soccer player enjoying the game and learning the fundamentals. The camps are specifically designed to be fun and technical. We use digital technology to give the players a break and providing them the opportunity to learn visually. Our camps have a wide variety of ages. Day 1 emphasizes technical skills by age group. Day 2 focuses on fun as an entire camp. This provides older soccer players with an opportunity for leadership, teaching them the responsibility of looking after younger kids. In turn, the younger kids build confidence. The final day is a combination of fun activities and technical small sided games.
